

ASSEMBLY INSTRUCTIONS FOR 32522

1. Before beginning the assembly, carefully unpack and identify all parts referring to the illustration.
2. Turn power to the installation point **OFF**.
3. Unravel the supply power and ground wires and pass the holes of long rod and fixture loop.
4. Install glass panel to the fixture body and secure with ball stud as shown in the diagram.
5. Thread long rod into the coupling at center of fixture body, then fixture loop into the top end of long rod.
6. Thread the end of arm into the hole of steel strap of long rod and line up the hole of arm with the hole of long rod, and secure with longer ball stud.
7. Thread stem into the coupling at bottom of fixture body.
8. Install proper bulbs (not provided) to each socket referring to the markings and labels on fixture for maximum wattage.
9. Raise pipe, check ring, glass, rubber washer and steel washer, and secure with hex nut.
10. Put font over the stem, and secure with finial.
11. Attach crystal to the ring of scroll of fixture body and finial as shown in the diagram.
12. Restore power to the installation point **ON**. Retain this sheet for future reference.
